Engineer & Cloud Solutions Architect, with +4 years of experience designing, developing and implementing tech projects leveraging Cloud Native and Automation tools to reduce operational load in at least 30% and improve software quality in at least 40% for DevSecOps teams.

- AWS & OCI.
- DevSecOps.
- Cloud Native.
- Microservices.
- Kubernetes.
- Serverless
- CI/CD Tools.
- Scripting.
- IaC & GitOps.
- Prisma Cloud.
- Leadership.
- Team Management.
- Customer oriented.
- Autonomous learning.
- Analytical thinking.

Professional Experience

CS Senior Engineer – CryptoSec, Mercado Libre (10/2024 – Present).

- Led the design, implementation, and automation of cloud security controls supporting crypto operations, ensuring alignment with organizational standards.
- Coordinated cross-team execution of security measures and automated delivery across multiple teams.
- Provided technical guidance on cloud security processes, ensuring their effectiveness, relevance, and adaptability to evolving needs.
- Incident response and maintained operational procedures to support availability, monitoring, and continuous improvement in the crypto ecosystem.

Technical Leader – Cloud Native & Automate, Netdata (04/2024 – 10/2024).

- Led implementation of new functions, ensuring smooth transitions and SLA performance above 90%.
- Resolved Tier 3 technical issues and operated tools like Prisma Cloud, CI/CD, and Kubernetes/Docker for stable operations.
- Designed automated cloud-native processes to improve scalability and efficiency.
- Managed team performance via KPIs (>85%), providing mentorship and regular feedback to engineers.

Senior Service Delivery Engineer – Cloud Native & Automate, Netdata (01/2024 – 03/2024).

- Advised clients in technical way to ensure effective integration and operation of cloud-native solutions.
- Manage DevSecOps tools (Prisma Cloud, CI/CD, Kubernetes/Docker) to drive secure, automated, and efficient delivery.
- Designed and deployed security solutions aligned with industry standards, integrating third-party services.

Junior Service Delivery Engineer – Cloud Native & Automate, Netdata (05/2023 – 12/2023).

- Supported client technical meetings to ensure alignment on cloud-native solutions and processes.
- Operated DevSecOps tools like Prisma Cloud to maintain secure, efficient service and automation.
- Integrated third-party services and resolved technical incidents to ensure continuous operations.

Education:

- **Business Intelligence, Specialist:**
Politecnico Grancolombiano, 2021.
- **Telecommunications Engineer, Bachelor's degree:**
Politecnico Grancolombiano. 2020.

Languages:

- Spanish: Native.
- English: B2.

Credentials:

- AWS Security Specialty, 2025.
- OCI Architect Associate, 2024.
- CKS – Kubernetes Security Specialist, 2024.
- Terraform Associate, 2023.
- CKA - Kubernetes Administrator, 2023.
- AWS SysOps Administrator Associate, 2022.
- AWS Solutions Architect Associate, 2022.
- Azure Fundamentals, 2022.
- Scrum Fundamentals, 2021.
